Nil falsi audeam nil veri non audeam dicere. Cicero.

FRIDAY, JUNE 20, 1884.

ASSOCIATED PRESS TELEGRAMS.

HAVAS AGENCY

Brussels, 18th.

The Belgian Senate has been dissolved by Royal Order. The elections for renewing half the Upper Chamber will be held all over the Kingdom on 8th July. There are 33 Senators to be elected.

London, 19th.

Bank of England rate reduced to 2 per cent. It was 2½.

PRESS TELEGRAMS

Montevideo, 19th.

At Colonia large "mataderos" are being made for the frozen meat business.

The military manœuvers in Plaza Carretas began to-day in presence of President Santos, the War Minister and others.

Stocks are still going up, owing to the heavy purchases by Buenos Airean brokers.

The engineers who came out about the port scheme will return to England on Saturday.

The Spanish Vice-Counsel at Tacuarembo has fled for reasons so very serious that the papers here are afraid to refer to the matter.

The Araucania and the Galileo have arrived.

London, 18th

Heavy fall in Argentine stocks, from 2 to 3½ per cent.

The National Bank Loan, issued by Baring, is at 79½.

Great uneasiness on the Stock Exchange.

Bank of England has reduced its rate to 2 per cent.

BOARD OF RAILWAYS.

The progress of our railways is the progress of the country, and the extraordinary growth of railway interests in the Plate, within the last couple of years, has confused even the intellect of our Congressmen. Senator Zapata has introduced a measure, which we give at foot, that has for its object the creation of a board of railways pretty much on the same scale as the English Board of Trade, and, when proposing his bill, very frankly admitted that no one in Congress, no one in the whole country, could draw on a map of this Republic an exact list of the railways in construction, much less of the new lines projected, and passed by law, or pending the vote of the House. To such a height has this railway confusion reached, that new lines of railways are proposed that will run parallel with old ones; and even some of the Government railways are open to the impeachment of injudicious and defective routes, passing through sterile countries, avoiding rich and populous districts, and thus involving the Government in expenses that are as permanent as the errors which create them.

To correct all this is a very noble ambition, and Mr. Zapata has come to the rescue with the measure we give at foot, which will establish a general railway board that can at a moment's warning tell the stranger or the deputy not only the exact route of every line running, constructed or projected, but also the exact cost of each line, which, we believe, is even a trifle more than many of the shareholders themselves well know. If we recollect aright, in the ante-Rocan epoch, say 1879, a board with similar attributes was created, and that most wealthy and most respected of our fellow-citizens, Mr. Anthony Cambaceres, and also Mr. Leonard Pereyra, were named to direct and manage that board and its regulations, and, we were about to say, its directors. Now, however, under the more genial sun of Argentine progress, the measure is dragged from the musty archives of an overworked Congress, and, in the full bloom of resuscitated railway interests, it is placed before our legislators. Mr. Zapata very properly comments on the railway push and railway confusion that at present exists, when the very English railway engineers arriving from London are obliged to sleep on dining-tables in our hotels, either that or "recados" in the patios, owing to the squeeze at every hotel in town by such a supremacy of railway men.

We are with Mr. Zapata, and hope that his new board will correct the many blunders which, under the name of railway progress, have been perpetrated.

The following is the measure:—

Art. 1. Let there be created, in the Interior Department, and under its direction, an office to be called "The General Direction of Railways," with the staff and attributes determined by this present Act.

Art. 2. The attributes and duties of this office are:

1st. To direct and inspect the State railways now open, and which may hereafter be constructed for the State, and those that may be built by private companies for the State, or with its guarantee.

2d. To propose to the Executive the construction of new railways, branches and stations, wherever they may be required for the better service of the existing lines or to meet the necessities of industry.

3d. To approve, after the Engineers' Department has first reported on them, the plans for new lines, and to supervise the purchase of materials whenever the cost of same exceeds 5,000 National dollars.

4th. To prepare, for the approval of Government, General Regulations and Special Bye-Laws for the working and management of the State lines; specifying so far as possible the duties and attributes of each employé, and the course to be adopted by the Inspectors of the lines building for the State, or with its guarantee.

5th. To introduce, with the approval of the Executive, a uniform system of accounts for the railways now working, and in construction; to fix and inspect the cost of the latter and close the construction account as soon as possible.

6th. Propose to Government the tariffs on the National lines, appraise the amounts in all cases when the Nation is interested, approve the time-tables, and the increase or reduction in the number of trains proposed by the different managers.

7th. Decide questions between private parties and the managers of National railways in those cases not provided for by law.

8th. Order inspection of all offices under its control, when deemed expedient, and give the Inspectors the necessary instructions.

9th. See that the laws and regulations are carried out in all departments under its control, and propose to Government any reforms and measures conducive to the better working of the railways.

10th. Propose to the Executive the suspension or dismissal of employés that fail in their duties.

11th. Insist on monthly, quarterly, or at least yearly accounts of receipts and disbursements from the managers of railways and all who have anything to do with railway funds.

12th. Examine the aforesaid accounts, and inform the Minister and General Accountant's Office whether they are approved or rejected.

13th. Send in yearly to the Minister a report on the National Railways and any others in the affairs of which the new Office may have a right to interfere; report on their progress and requirements, and the financial position of each of them, together with copies of the reports of the different managers.

14th. Draw up yearly a map of all the railways in the country, whether working or building, specifying their length, the territories they go through, and whether they belong to the Nation, the Provinces, or private companies.

15th. Give every information that the authorities and different offices may require.

Art. 3. The "personnel" of the "General Direction of Railways" shall comprise three Directors, one of them to be the President, and two of them, at least, to be Engineers. The Executive will appoint them, and their salaries be such as may be provided in the General Budget. To be an Engineer-Director three years' service as Engineer on the National railways is necessary.

Art. 4. The three Directors shall have to assist them, two Accountants, three Inspecting Engineers, and whatever other employés the Budget may provide for.

Art. 5. The Accountant-General's Office is hereby relieved from the duty of examining the railways' accounts, but not from the other obligations which the Law imposes on it in reference to all the offices of the Administration that have anything to do with State funds.

Art. 6. Let this be communicated, etc.

José V. Zapata.

THE LAND BUSINESS.

The recent spurt in the land speculation has been the subject of much comment, and it is interesting to watch the antagonistic opinions that have risen in consequence. The pessimists—the men who never smile—do not believe in this sudden activity which has sprung up in a fortnight, and laugh at the ingenuous conviction of those who accept these sales as "bona-fide" transactions. As is usual in these speculative matters, the extremes of opinion are touched and no moderate basis of criterion is adopted. The main points are disregarded in the discussion, which dwells as a rule on isolated transactions of a more or less spurious or "bona-fide" nature.

The remarkable feature of the land business is that for the last three years many have been preaching that the bubble must burst, that the speculation must come to the ground, and finally that land speculators must be ruined. Up to the present these forecasts have fallen very wide of the mark, as can be seen in the incredible disproportion in the prices paid in 1881, and 1883, and 1884. Viewed from this stand-point the augurs of sound political economy have been all wrong, but as they are very consistent in their doctrinal prognostications we must leave the solution of the question to some future day—the end of this century, perhaps that of the next. Inductions of this nature may be indulged in at pleasure, but we must concrete our remarks to facts—to the past.

The land speculation which began in 1881 reached a climax towards the middle and end of 1883. A remarkable lull then ensued which in some way corroborated the opinions of those who thought that the land business was on the eve of a "degringolade." Speculators, it was asserted, could not hold out and a land crisis was imminent, but the last few months have shown that the speculative lull of the business had been much exaggerated, since the frontier lands have not been thrown on the market and the tumble in prices anticipated for three years did not take place.

The fact is that these National lands are held by men with brains and capital; they are in no need of selling, and they stock their immense properties or let them in some instances in order to get some return on a capital which they need not move. The wealthiest men in this market are now the chief owners of all these frontier lands; the few speculators who went into the business have dropped off, as they could not compete with the capitalists who paid prices out of all proportion, and which in fact so much startled the market that the fears of the land crisis were thereby engendered.

The capitalists, in fact, are the men who have put a stop to the land speculation. No sooner had they got hold of the lands than they demanded, and continue to demand to the present day, prices that may appear preposterous to the outsider, who with a little money in his pocket is bent on land investment. Small capitalists must become persuaded that the days are gone, to come no more, when lands could be bought for a song. We know of scores of landowners who will not sell lands which cost them a year or two ago 100,000 dollars under 10,000 patacons, and many indeed will not sell at any price, as they consider the lands which they hold the best investment in the world. Many speculators who welcomed the lull as a signal for a fall all over the line have been deceived. A few bargains, no doubt, were secured owing to some speculators who were obliged to sell, but these operations have been an exception, as any landbroker can tell intending investors.

The great feature about the land business of late is not the spurt which has taken place this fortnight, but the steady demand for cattle to stock these lands. Cattle estancias now stretch southwards to the banks of the Colorado and to those of the Rio Negro; Northwards we need not mention, as a glance at Loreto, Media Luna, Venado Tuerto and Rio Cuarto will suffice. Westwards, cattle runs extend to where the late Mr. M'Clymont was murdered, to Victorica, and in the Rio Negro valley to very near the foot of the Andes. The only dilemma now is what will the producers do with all their animals, a question outside this article.

Others have begun to rent their estates and now their capital lies no longer idle. Farmers are paying from 15 to 20,000 $m/c per league per annum in the West and South, and lands are increasing in value as the settlements stretch out. Land is the back-bone of the country; it is the safest and the best, if not the most lucrative; none need anticipate a return of the prices of 1881. There is a tide in the affairs of men which taken at the flood leads on to fortune; the probabilities are that the tide that built the fortunes of so many since 1880 will not return for years to come, and the very experience we have gathered will prevent its return. The cheap lands at present in the market are very distant, and although they may be susceptible of a more rapid rise than the lands nearer to the market, they do not offer the same guarantee of steady progress. Those who want to buy cheap lands must now approach the foot of the Andes, the Interior, or invest in the Northern and Far Southern territories as yet in the hands of the Indian. Cheap lands in the province of Buenos Aires or in the Central Pampa are now out of the question, and the prospects are that these will continue to rise proportionately to the increase in the wealth and numbers in the country.

The National Government has given a subvention of fifty nats. per month to the Musical Institute of Cordoba.

THE CITY IMPROVEMENTS LOAN.

Congress has at last passed this long-pending loan law, whose London, Parisian and Buenos Airean vicissitudes might well afford the subject of a financial novel. Luckily for the citizens of Buenos Aires, the construction of those great City Improvement Works, which tear to pieces our streets, block up our tramways and have rendered the aspect of the Foreign Club for the last month so pitiable, was entrusted to an Italian firm of such great strength and resources that the stoppage of the loan in Europe did not provoke the stoppage of the works here, and Messrs. Devoto and Co., the contractors pushed ahead with their drain pipes and excavations with the same vim as if Rothschild himself had telegraphed to them to keep on steadily with the works.

We shall not intrude on the attention of general readers the many checks, blunders and minor details respecting this loan, which are so well known to all the bankers and bankers' agents in this city; suffice it to say that three loans were popped into one general bond, and that the interests connected with those three loans were so conflicting that the sealing-wax of all London was insufficient to supply a seal large enough for the proposed bond. The National Bank broke away from the contract and was launched independently in six hours, and now that Congress has modified the terms, as suggested by the London bankers, we suppose it will be all plain sailing, and with the little connecting link of the Riachuelo loan the business will be done to the satisfaction of all concerned.

The City Improvement Works are progressing much more rapidly than people expected. They seem to be in excellent good hands, and in a very short time we shall have the city drained of that perilous stuff which drove so many of us off to Caballito and Flores.

Mr. Bateman will, we believe, pay us a visit before the end of the year, and his presence will give fresh impetus to everything.

The passage of this revised loan law removes all the financial difficulties, and with 5,000 men at work, Buenos Aires will soon be as clean and as healthy to live in as San Jose de Flores.

The following is the amended law—

RIACHUELO AND HEALTH

Art. 1.—The Executive is authorised to emit the sum of 12,133,345$ m/n. in foreign loan bonds, bearing 5 per cent. interest and 1 per cent. amortization annually accumulative, by drawing and at par.

Art. 2.—The proceeds of this loan shall be distributed as follows: 4,133,345 to pay the expenses of expropriation and working on the improvements in the Riachuelo; 8,000,000 to carry on the city Improvement Works.

Art. 3.—The service of the loan to be made from the general revenue, the manner thereof to be determined by the Executive.

Art. 4.—The Government reserves to itself the right of increasing the amortizing fund.

Art. 5.—The following articles are annulled: Arts. 3 of the law of Oct. 28, 1881, and Arts. 6, 3, 4 and 5 of that of Jan. 1882.

Art. 6.—The expenses of carrying the law into execution to be charged to the same.

BUENOS AYRES AND ROSARIO RAILWAY.

(*Concluded.*)

Now, gentlemen, having dealt with the traffic of the past year, I pass on to what I should consider the second part of the report, which you will find on page 2, commencing with the paragraph as to the special resolutions of the Company, showing how the reorganisation of the Company has been effected, and giving its present status. In connection with that point I have some returns which show the position of the old Company as compared with the position of the new or reorganised Company. I find the total capital of the old Company, reduced to a mileage figure, represented £18,342 per mile of line. On the other hand I find that the Company as reorganised, supposing that our 138 miles had been constructed in addition to the 50 miles already existing, would have a total mileage of 188 miles, and the capital cost will only represent a mileage cost of £9,750 as compared with £18,342 under the old Company. If you will take the trouble afterwards to make the calculation you will find that we expect, and our estimates lead us to feel certain, that we shall be able to carry out these expectations to construct the 138 miles for the sum of £7,000 a mile. I have no doubt we shall do this, because the estimates have been most carefully prepared, but at the same time I think it will require the greatest care and the greatest economy, and it is very fortunate that all the contracts have been made on the most favourable terms. I believe I can assure you that every article that has been contracted for we have been fortunate in getting in at the very lowest point of the market, and we could not to-day make those contracts so favourably as they were then made. That is a very satisfactory feature, because, as I say, we have not too much capital to work with, and if we should be able to construct this line for £7,000 a mile, we shall, as a Board, consider ourselves very successful. Another feature I find which is of very great importance is, that the preferential charges on the old capital represented an annual charge of £873 per mile; the preferential charges on the new line, in which I include the debenture stock and the 7 per cent preference shares, only represent an amount of £418 per mile. That is a very satisfactory feature in our future prospects. Taking the basis of calculation as in the prospectus, with those preferential charges taken off from the estimated net traffic, leaves still a fraction over six per cent. for the ordinary stock of the Company—(Hear, hear). But supposing that the increase of traffic which we have received up to the present time is maintained and we are able to work the line at 50 per cent., and taking the gross receipts on the 188 miles on the same basis, you will find after paying the five per cent. debenture interest, which amounts to £36,650, there remains an amount to deal with in the shape of dividend upon our preference and ordinary stock of £106,690, which would give 7 per cent upon the preference shares, and nearly 13 per cent upon the ordinary stock. Or if the preference Shareholders carry out the right that they have of converting their preference shares into ordinary stock, it would still give to that united stock, which would then be ordinary stock, a dividend of something like 9 per cent. or a little above 9 per cent. Now, I make this calculation, basing it upon the actual receipts of the line, and to those who like ourselves have been long resident in those countries—and in these I can include five members of the Board, and although Mr. Pulley has not been there himself personally, yet he has been so long interested in those countries that I believe he will bear out these assertions—I think there cannot be a doubt in the minds of every one here, that if with the actual system we are grossing a traffic receipt of £1,325 on 50 miles of line, surely it is not out of the way to assume that when the 188 miles of line are open, when we make our connections on the one side with the Central Argentine and all the railways that go up to the north from Buenos Aires and on the south with the Buenos Aires Great Southern, surely it is not out of the way to assume that there will be a very large increase of our gross traffic. I think I may very fairly take it as a certainty that if the countries continue in the same way as they are going on now, we shall have a very largely increased mileage receipt over the system when it is once completed. As you know, our project is to unite our line at Rosario with the Central Argentine Railway, and at the other end of our line with all the important railways that branch off south and west through the whole province of Buenos Aires; we, in fact, forming in this way a main central connecting link in the great system of railways already in existence and carrying a very large traffic. Now, gentlemen, in confirmation of those remarks, not wishing that my own views should be unsupported by the views of other friends in whom I have the greatest confidence, and whose skill as railway men is recognised here amongst several of you, I have been in correspondence with different friends in Buenos Aires, that I might have latest advice and particulars of the development and the progress of those countries, as actually taking place; and I am now going to read an extract from only one letter, which I think bears so clearly and fully on that point, that it will—not reassure or convince you, for I hope you are assured—but will show clearly the views of other people upon that point. Writing as to our system, this gentleman says:—

"I have gone steadily over the ground from Campana to Rosario, and I have been surprised and delighted at the whole. I had no idea that anything of the kind existed in this Republic. The whole district is thickly populated, fully stocked farms extend for leagues; the land carries more sheep and cattle than I ever thought possible, and the access to the river navigation is so difficult, except at San Nicolas, that you need not fear competition by water." I put that question to him specially, because it has been remarked by some of my friends on this side that the river might be a competing element. He continues, "all this with deficient means of transport, and with a railway to Buenos Ayres, means every acre of ground broken up for agriculture in five years, if not less. I have no time to speak of the large traffic from the interior which must come to you. I will only add that, as a railway man, I would build the line with confidence in the result, if only local traffic existed, and I would with equal confidence build it if there were no local traffic at all." Now, gentlemen, those views have been sent to me by other friends also. I merely cite them to you as confirmatory of what is my own impression, and I believe what is the impression of all my brother Directors. Before moving the adoption of the report I will only allude to the very valuable assistance we have received all through, and of which special mention is made in the report, forom our local representative and consulting Director, Mr. Coghlan—(Hear, hear). He was associated with the Company before it was reorganised and during the reorganisation, and in the negotiations with the Government he has rendered most especial services to this reorganised Company. I think, therefore, it was not more than his due to make special reference to him in the report, and I am sure that the vote which my friend Mr. Pulley will probably move later will be fully emphasised in that respect. In the vote of thanks our intelligent secretary will be also included. I think I need not detain you further, and I will therefore move, "That the report of the Directors, together with the statement of accounts to the 31st December, 1883, now submitted, be received and adopted."

Messrs. L. Porth & Co. have offered the Municipality a wooden kiosk for 625 nats. It would be an ornament to one of our 'paseos.'

NORTHERN RAILWAY OF BUENOS AYRES COMPANY, LIMITED.

The ordinary general meeting of the shareholders of this company was held on Saturday last, at the offices, 8 Draper's-gardens, Throgmorton-avenue, Mr Chas. S. Hayne in the chair.

The Secretary (Mr. J. W. Theobald) read the notice convening the meeting, and the report was taken as read.

The Chairman, in moving the adoption of the report and accounts, said: Gentlemen, during the past year we have received a very considerable addition of traffic, and I am happy to say that during the current year our rate of increase has been fully maintained. In round numbers, the total increased receipts during the past year amounted to £15,000. On the other hand, we have had a considerable increase in the working expenses, in regard to which no doubt the shareholders will require some explanation. (Hear, hear.) To the whole accounts the following general statement applies, and it is this—that for many years past affairs in Buenos Aires have been in a very depressed condition. The traffic of the line fell, and we were obliged to undertake very considerable economies in order to keep faith with our debenture-holders, and to pay the debenture interest with regularity. Of course if we had not undertaken those economies, and if we had failed in paying the debenture interest, it would have been a serious thing for the company. Those economies resulted in the rolling stock and permanent way not being kept up in the same first-class condition which they would have been had there been no deterioration of traffic. Consequently we are at the present time obliged to make up for past economies in order to put the line into that first-class condition which is required by the Government, and which is required by the passenger traffic, of which the traffic of the line principally consists. In addition to that, there is another reason why we should be rather lavish with our expenditure, and that is, that we have competitors, of a very formidable character in the Campana Railway and the Belgrano Tramway Company. In order to preserve our traffic it is necessary that the rolling-stock should be better than in former years, and in order to attract passengers we are obliged to give increased train services, and in fact to those things which cost a great deal of money but which are absolutely necessary when a company is in the face of severe competition. Passing from that general statement, I will for a few minutes, with your permission, call your attention to the statement at the end of this report, in which the receipts and expenditure of the company are compared with previous years, and I think a slight examination of that will show you in accurate figures that what I have stated is correct. Take the first year mentioned in that comparative statement, 1874, and compare it with the year 1883. You will find, that the gross receipts from all sources were very much the same in 1874, being £67,915 as against, in 1883, £63,732. You will find, however, that the number of miles run present a very considerable increase. In the first year they were 117,000 odd; in the last year they were 140,000 odd. So that to earn the same amount of traffic we have had to do a very considerable increased amount of work. Then, again, take the number of passengers in 1874. In 1874 we carried, in round numbers, 650,000 passengers, being an increase of 150,000. Then if you look at the amount received, there is a very remarkable difference, for whereas in the past year we earned in round numbers £40,000 for carrying 650,000 passengers, in the former year, that is in 1874, we earned £50,000 for only carrying 500,000 passengers; so that our receipts in that year from passenger traffic were considerably greater, although the number of passengers carried was considerably less. Then, if you come to the goods traffic, there you will see the same thing only in a still more marked manner. In 1874 we carried 40,000 tons of goods; in 1883 we carried 118,000 tons of goods. But in 1874 we received £15,000 odd in respect of the amount we carried, but in the past year we only received £18,000; so that for 40,000 tons of goods in one year we received £15,000, whilst for 118,000 tons of goods in the latter year we only received £18,000. That shows at once what a vast amount more work we have had to do in order to earn the same amount of money. Of course the reason of that is competition. Passing from the effect of competition on the receipts, I go on to the question of expenditure. There has, undoubtedly, been a large increase of expenditure during the past year. This is due to many causes. One of the principal ones is the great increase of wages. Our general manager warned us of this last year. Affairs in Buenos Ayres are looking up; the rate of wages ruling at the present time is in excess of what it was in the first year, and that in a certain measure accounts for the increased expenditure. Then again, we have been obliged, owing to the large amount of traffic we now carry, to employ a greater number of officials at various stations. Then again we are informed that during the whole of last winter in Buenos Ayres the weather was very bad, and our traffic manager estimates he had to spend at least £1,000 extra in the maintenance of the line on that account. Then in regard to the coal, there is an increase on that item, which may be accounted for in this way—last year we were unfortunate in having the loss of two vessels. This made our supplies in Buenos Ayres short, and consequently Mr. Shaw had to purchase coal in Buenos Ayres at an increased rate. The rate per ton increased, and it works out to 7s. per ton additional, as compared with the previous rate. I am happy to say that we have now a good stock of coal in Buenos Ayres, and if we had to suffer the same calamity if one vessel, or even two, were lost—we should not again run short. It will be satisfactory to you to observe that the engines are reported now in good order, and also—which is even of still more importance—the permanent way. The reconstruction will, in the course of the present month, be completed, and the whole line will then have been laid with steel rails. You will observe that during the present year we have largely increased our rolling-stock; that is to say, the rolling-stock for goods traffic. We have delivered fifty new wagons and twenty-five more are now on their way out. The sale of one of the locomotives to the Ensenada Company is, I think, one that is mutually advantageous to both companies. A shareholder might imagine that it was useless increasing the rolling-stock of the company at the present time, seeing that the traffic was not carried at the same profit as heretofore; but this view would be a short-sighted one, for unless this company kept pace with the requirements of the traffic, there is no doubt we should get into bad odour, not only with the Government of Buenos Aires, but with the public; and I think the best policy is to make the line popular with all classes of the community, and by that means we shall be able to maintain our fair share of the traffic which belongs to us. I am happy to say that early in the present year the the long outstanding account with the Government of B. Aires was settled, and we have received £6,818 in respect of our claim. That, I hope terminates a long-pending question and it must be satisfactory to the shareholders to know that the Government have met to the full their liabilities to this company. (Hear, hear.) In regard to the method of dealing with that amount, I believe the board has adopted that which is for the best interests of the company. There was, as you are aware, a sum which was carried to suspense account last year, and which had to be met out of future revenue profits, part of which was an account of permanent way renewals. We propose in the present year to wipe that out entirely, so that in future years there will be no charge against the revenue account in respect of previous permanent way renewals; and this will enable us to declare a dividend at the rate of 7 per cent. on the first half-year of the year 1880—making in point of fact, if you leave out of consideration the question of arrears of dividend, 7 per cent for the past year. We shall then carry forward a small balance; and I can only say in conclusion that if the traffic goes on increasing at the present rate I sincerely trust the company will very shortly be able to do something towards getting rid of a further portion of the arrears. I don't know that I can usefully add anything further to what I have said, and I therefore propose "That the report and financial statement, now submitted to this meeting, be received and adopted."

Mr. H. D. Browne seconded the motion.

Several questions relative to items in the accounts were asked by Mr. Bazett, and satisfactorily replied to by the Chairman.

The resolution was then put to the vote and agreed to "nem con."

The Chairman next proposed that a dividend at the rate of 7 per cent. per annum, in respect of arrears for the first half of the year 1880, on the guaranteed preference shares, be declared.

Mr. Rostron seconded the resolution, and it was carried unanimously.

THE DREAD OF DISTANCES.

Among the curious maladies which advancing civilisation seems destined to bring in its train, not the least remarkable is that on which Parisian doctors are bestowing a good deal of attention just now—the obliquity of mind which has been called "peur des espaces." The sufferer is usually a man in apparently good health, and is affected by no premonitory symptoms, although, on the other hand, there are cases where the malady results from other diseases, and is introduced by a feeling of weakness and sickness. It generally comes on suddenly, when the patient arrives at a particular place or is brought into the presence of a particular person. He is then observed to be in mortal terror without any apparent cause; The earth seems to him to open into a chasm before his feet, or he finds himself isolated by an immense and impenetrable space from the rest of the world. If he is on the pavement he dares not for his life step on to the roadway, but stands stock still to be jeered at by the street boys. If he is on a step, he is afraid to move up or down for fear of being dashed to pieces in some imaginary abyss. All this time he keeps his wits—or, at least, a great many of them—about him, and is sensible of his absurd position. Sometimes he has enough sense to avoid places where the attack has come on before, or seems likely to do so. Another peculiarity is that most of the sufferers belong to the liberal professions and to the higher ranks of society. By examination into a considerable number of cases in the hospitals, it was found that men more often suffered than women, in a proportion of about four to one.

A capital anecdote is told of a little fellow who, in turning over the leaves of a scrapbook, came across the well-known picture of some chickens just out of their shells. My companion examined the picture carefully, and then with a grave sagacious look at me, slowly remarked. "They came out just because they were afraid of being boiled."

EDITOR'S TABLE.

The great day has come, and the night is at hand: The doors open at 7.30; the overture begins at a quarter to 8; the curtain rises at 8; a fantasia from Strauss's new opera "The Queen's Handkerchief" will be played for the first time in Buenos Aires, and when it is all over, and the audience are sore in the ribs from excessive cachinnation, there will be tramcars (perhaps closed ones, perhaps open ones—the latter if the managers are in a joking humour) to take them home to sweet repose. A military band will discourse sweet music in the street during the evening, and the performance will be over at 11¼ p.m. Need we add that the foregoing remarks apply to the great event of the night, the charitable amateur performance at the Opera House in aid of the Irish Orphanage and Drysdale Blind Asylum.

Except for those who take an interest in the religions question, things were dullish yesterday (again excepting the financial news). Everybody remarks that the cablegrams from Europe have been miserably insipid for a long time now. The appearance of Gordon's head on the top of a "Mohamedan pole" might rouse things up a bit in Europe; but nobody would like to see them roused at such a price. Some people think that the Egyptian Conference in London is not at all unlikely to lead to worse difficulties than it is meant to surmount. It is an old saying that Conferences generally end in war.

The school children of the city are up to their eyes in preparation for the Feast of St. Louis de Gonzaga to-morrow. The chief ceremonies will commence in the Cathedral at 8 a.m. The Archbishop will officiate. The City of Buenos Aires, the Anglo-Argentine and Boca Tram Companies have generously offered to carry the children free on the occasion.

We made a clerical mistake yesterday in saying that the Municipality is the purchaser of the old British Hospital. Don Diego Alvear is the buyer.

Our Belgian friends seem rather pleased that their new Prime Minister and Chancellor of the Exchequer, Mr. Malone, is an Irishman. A patriotic feeling led us yesterday to hunt in every quarter for a biography of this distinguished Hiberno-Belgian statesman, but we could not succeed. We fancy, however, that he must be a relative of the Widow Malone, Ochone! immortalised in the pages of Charles Lever.

Next week Ferrari will give in the Colon Theatre the benefit for the Municipality stipulated in his contract. The idea of the Municipality of a great city wanting or accepting a benefit at a theatre seems, at first sight, rather funny; but we suppose the money will go to the city hospitals.

Commissary Suffern was still in a very dangerous state yesterday, and his doctors have but a poor hope of saving him.

With deep regret we announce the death of Madame Emily Fitzgerald, Superioress of the Convent at Wandsworth, England; the deceased lady was sister to our most esteemed Revd. Mother Fitzgerald, of the Irish Convent in this city, and daughter of Lady Fitzgerald, of Litchfield, England.

We have received from the United States the following letter, which we publish with a view to show our readers what the people abroad want to know about this country:—

Fort Ross, Sonoma, Co. California.

Messrs Mulhall.

I hope you will pardon me for asking you to give me a little information in regard to your country, as I have no one else to whom I could apply. I would like to know the price at which grazing lands could be obtained in your camps, (per league) in American money. Also how many cattle, cows and steers an average league of your grazing lands will carry the year round.

Yours obediently

G. W. Call.

The Health Commission has informed the Municipal Board on the convenience of paving Calle Caseros between Buen Orden and the Southern Railway station, in the Parish of Santa Lucia. The residents will virtually have, however, to 'pay a footing' as they must subscribe each one their cost of frontage.

The latest from the South is a race (on foot) between two 'conocidos' of the flourishing town of Chascomus, to be run off on Sunday. Distance, from the wire in Calle Lastra to the church. Prize—a suit of clothes.

With regard to the sailors of the Crown Jewel, on investigation, one, for disobedience was fined, and all were ordered to be paid off the ship.

The fiscal authorities have at length been installed in their respective offices in Bahia Blanca. The Minister of Finance has received congratulatory telegrams; one from the principal merchants, and the other from the Receiver. It is a step forward for this rising port, and a necessity entailed by the great increase in its commerce.

Horse stealing is the fashionable weakness now in the new capital of the province. Not a night passes without a theft of this kind being reported, and the police are unable to tell where all the equine plunder goes to.

Advices from the South report that they have had another deluge of rain down there, and that the camps are covered with water.

The new telegraph line to Paraguay is as great a failure as the new tenor at the Colon. An esteemed, mercantile subscriber showed us yesterday a telegram he had just received from Asuncion, which city it left on the 9th inst!!! *Nine* days from Paraguay! Only six days less than the Nord America to make the run to Europe.

We received yesterday the "Memoria" of the Foreign Office, just laid before Congress; 557 pages of closely printed matter, which shows that Dr. Ortiz's portfolio is no sinecure.

This morning there will be grand religious ceremonies at the Irish Convent, Calle Rio Bamba, it being the feast of the Order of the Sacred Heart. High Mass at 10 o'clock a.m., sung by the orphans; a sermon in English by one of the Passionist Fathers, and Benediction in the afternoon at 3½ p.m. by the Archbishop.

On 3rd July next there will be a Requiem Mass at the Irish Convent for the late Father Michael Largo Leahy at 10 o'clock a.m., which will be sung by the Orphans.

A noted physician says many persons simply by deep and rapid inhalations of pure air, can become as intoxicated on oxygen as if they had taken a draught of alcoholic stimulants. Here is the point for the man who has been walking rapidly home from the club in the night air.

The "cazueleras" of the Colon Theatre are very indignant at one of our colleagues having said that they tooted on tramway horns the other night during the row. They did not; but the "gods" did. Many people now go to the once aristocratic Colon on the chance of a row cropping up at any moment.

It is expected that the personal property of the late Duke of Buccleuch will exceed a million. The Duchess became a Roman Catholic many years ago, but her husband and all her family have adhered to their hereditary Church principles. The Duke's rentroll was £217,163. Consequently, during the fifty-seven years which he enjoyed it, he must have received from the land £12,378,291.

Our colleague, *El Democrato*, has given up its queer whim of printing with green ink, and now appears in orthodox black print. We are glad of the change, as verdant ink is trying on the eyesight.

A New York colleague says—"The latest novelty in weddings, is for the bride and groom to keep as a profound secret where they are going on their tour. The object, no doubt, is to escape the presentation of bills during the honeymoon. The scheme is not original. The groom often endeavours to keep as profound his whereabouts after his return from his wedding tour."

Dear Sirs,
I have much pleasure in stating that I cured all my flocks this season with the "Golden Leaf Extract" and found the result highly satisfactory, and in future do not intend to use any other dip.
After first using the "Golden Leaf," I found it such a perfect cure for Scab that I recommended it to several of my neighbours who have all proved it equally good.
Yours truly
W. R. GRANT.

"X. L."
SHEEP DIP
NICOTINE

From the finest selected Virginia Tobacco Leaf.

FREE FROM POISON

THIS EXCELS ALL OTHER SHEEP DIPS.

It is uniform in strength, evenly dissolved free from lumps.

After a trial of ALL the New Dips, the highest testimony declares NICOTINE to be the best for both Sheep and Wool.

THIS EXCELS ALL OTHER NICOTINE.

No other is absolutely pure.

Being prepared solely for Sheep Dip, the other Natural Ingredients in it are only such as assist in the cure.

It is the only Dip that contains the highest possible per-centage of Nicotine.

ITS EFFECTS ARE MARVELLOUS.

It Increases the Weight of Wool.

It Improves the Quality of the Wool.

It Strengthens the Sheep and Increases their Vigour and Size.

It will Prevent and Eradicate Scab and other Skin Diseases.

It Cures Internal Diseases.

IT IS THE MOST ECONOMICAL.

It is the Cheapest in proportion to its strength.

It cures from 100 to 200 per cent more Sheep than any other Dip for the same outlay.

It has given 400 per cent profit on its cost, in Wool alone.

DIRECTIONS.—Put 1 Gallon to from 150 to 200 Gallons of Water. It can be used with Cold or Hot Water, but Warm Water makes all cures more effective.

River Plate Testimony

"We have bought the "X L" Sheep Dip (Nicotine) in large quantities, and have no hesitation in saying that of all Sheep Dips Nicotine has proved the most necessary and effective for cure. It has saved our Sheep and increased our Wool far beyond any other Dip. Indeed, we have not failed to use it for years, and dare not be without it."

(Twenty Years' Experience.)—"No Sheep Dip is so economical nor gives so little trouble nor has any other in my long experience proved so effective."

"Tobacco Extract has been used on my Sheep farm for years, and always with success. The Wool is heavier per fleece and better in quality by its use, and the Sheep are healthier and stronger, and fetch better prices than they would if we had not used it. A pure and reliable Extract (such as the "X L" brand) appears to be just what is wanted."

"Nicotine is undoubtedly the best Sheep Dip for Scab. We have used it freely and regularly for several years, and with great success. The "X L" brand is better mixed and more uniform in strength than any other that we have either seen or used."

Australian Testimony.

From a Farm with 80,000 Sheep. Fifteen Years' Experience. "Nothing surpasses Tobacco Extract. We grow our own Tobacco to get it pure, and to be certain of having it at hand when we want it. But a reliable Extract (such as the "X L" brand) would be a saving of much trouble, anxiety, and expense."

Cape Report.

"We have formerly sold the Glycerine, or M'Dougall's Dip, but as the "X L" Tobacco Extract appears to be both cheaper and better, we are now selling it in preference."

READ THE ANALYSIS—

Liverpool, 9th November 1882.

"I hereby certify that I have examined samples of the "X L Nicotine Sheep Dip" sent me, and find it to contain:—

Nicotine	9·30 o/o
Extractive and other Organic Matter	36·56 o/o
Salts of Lime, Potass.	19·92 o/o
Water	34·22 o/o
	100·00 o/o

"This Sheep Dip has evidently been prepared from Tobacco of good quality, as is shown by the large proportion of Nicotine and the character of the extractive matters. It mixes readily with water, and appears to me to be a preparation of even, reliable character, well suited in every way for use as a good Sheep Dip."

(Signed), A. NORMAN TATE.

Fellow of the Institute of Chemistry of Great Britain and Ireland, Principal of the Institute of Technology, Liverpool.

A small sample shipment of the above has been received and can be obtained at

ON 'CHANGE.

June 19th, 1884

Cedulas F	84
National Bank Shares	149

This was a field day on 'Change, and the very early telegram from London announcing the lowering of the Bank of England rate to 2 o/o was known in the Banks before the Bolsa opened; the celerity of the message was remarkable, dated to-day London 12.20, and received here at 11 o'clock a.m. To counteract such great good news, the bears had another telegram that Argentine Bonds had suffered a fall in London, and that several telegrams to that effect had been received by some well-known parties. It seems incredible that with money at 2 o/o per annum in London, Argentine Bonds 6 o/o should suffer such a fall as that rumoured 5 o/o in the Riestra Loan and 6 o/o on the Baring loan the bulls spread the rumour this morning that ex-Governor Rocha was selling out. We never before heard that the ex-Governor held a share, but there were those on 'Change who state that he holds some 5,000 shares, and that for the last three days four brokers have been selling for his account. The fall in the stock this morning was certainly very sharp, and the liquidation for the end of the month promises to be a very heavy business. Cedulas sympathize with the tone of the share market, and people found it hard to sell Series F today at 84, which is a low price for this stock. Investors, however, in Cedulas are not so numerous as in former years, and it is reported that the Bank has issued a very large amount to the Municipality, which, of course, is another weight on the market. At the close of the ring 1,000 Bank Shares were sold at 149, and 500 more offered at 148½; and Series F was offering at 83¾, no buyers. We may state, however, that there was a telegram in town stating that the Bono General will be signed in London on Friday (to-morrow).

The stand-from-under feeling was reflected in the countenances of the brokers as the sovereign stock of the market fell from 152 to 149. The ring was thronged, and the excitement during official hours was unusual. Six thousand shares were sold for the end of the month; rates opened at 152, made a slight stand at 151½, and then began to tumble headlong, closing very weak at 149. Operations for the end of July embraced 1,400 shares, the market opening at 153, and closing at 151½. The break in the market is complete, and it appears that one of the heavy outside bulls has begun to sell and bear the market; this coupled with the unfavorable rumours floated on 'Change explains the fall. Nothing was done in National Bank Scrip.

Twenty three thousand Series F were sold cash, and 10,000 for the end of the month at 84. The market closed weak. No operations were effected in Series E.

The exchange market shews no alteration. A few operations were reported to-day at 47⅝. Active operations are anticipated for to-morrow. The money market continues in the same condition.

Mr. Gonsalez Arrascaeta has sold four leagues of land in the VIIIth Section at 90,000 $% per league.

The steamer Wexford will load in Campana five hundred tons of maize and a cargo of frozen mutton.

The Galileo has arrived in Montevideo with 2,000 tons of cargo and passengers. Her mails come up in the Thales.

El Diario published the following telegram to-day:—

"London, June 18th

"Argentine Bonds have suffered a severe fall of 2, 3 and 3½ o/o compared with last week's prices.

"The 5 o/o launched by Baring is quoted at 79½.

"Much uneasiness on the Stock Exchange.

"Fall attributed to causes connected with the loans at present in the hands of negotiators.

"Bank of England reduced minimum to 2 o/o."

The Pomona left Patagones the day before yesterday; she will call at Bahia Blanca on her way up here.

The following were the sales at the ring during official hours:—

Cedulas—
For cash F 23,000 at 84
For June 30th F 10,000 at 84
Sales, 33,000

National Bank Shares—
For June 30th 5,650 at 152-151½-152-151¾ to 151½-¼-⅜-½-¼-151-150½-½-¼-150-149¾ to 149½-149
For July 31st 1,400 at 153-152¾-153-152¾-½ to 152-151½-¼
Sales, 7,050

Exchange on Montevideo is nominal at 2½ per cent. Advices from the Mount state that the speculation in Unifieds continued very active yesterday. Telegrams from London quote the stock at 60½.

Telegrams from Rio quote exchange in that market on London at 20⅛.

Two cargoes of Cardiff coal have been sold to arrive at 11$F and 11½$F for the rivers.

Fourteen leagues of camp on the Rio Dulce, in Cordoba, have been sold at $2,600 each.

Messrs. George and J. C. Bell have bought two leagues of land in Loreto at 250,000$ % per league. We congratulate the buyers, as they have secured a great bargain. They can easily sell their "boleto" of purchase for 100,000$ %, as lands in the Loreto are in demand at 300,000$ % per league. One party was offered this amount for several leagues and refused.

Five hundred head "novillos" of three to five years old reported sold at 330$ m/c each.

Several hundred thousand francs exchange were passed to-day at 4.95-96½, the market very weak and few bills.

The share market opened weak during afterhours, but the bulls made a push and managed to drive rates up to 150½; hereabouts the stock fluctuated some time and then fell back to 149, closing with sellers at this rate for the end of the month. About two thousand shares were sold.

The new regulation with regard to the liquidation parlor creates still much opposition, and outsiders this evening endeavoured to form a ring of their own, but the attempt failed. Brokers are much satisfied with the new measure.

Discounts are reported to be very difficult. The very best bills in the market cannot be discounted under 7 o/o, and the private banks are very stringent. Government Bills are in demand, but quotations are nominal owing to their scarcity.

Several important land transactions are spoken of by brokers; the market has been very active since the beginning of the month and lands are in demand.

The following table of the animals slaughtered by the saladeros of the R. Plate up to the 15th inst. will be perused with interest:—

Killings up to 15th June—

Costa Oriental:—

From the Plaza Once we have the following 66 waggons with produce arrived.

The arrivals were:—
1,600 @ of wool
1,198 bags wheat
525 bags maize
5,224 @ flour
210 bales hay
and much hides and skins, &c.

Little business done. Prices of produce without variation.

The sales were:—

Wool—
No sales.

Cow Hides—
670 camp at 152, 151, 150, 145
Hair—250 @ good at 157, 153-151
Cow Hair—Per ar. at 115

Sheepskins—
Per doz. at 20 rls. lb
Desechos, 18 rls. lb
Station, Per doz. at 19-17, 15, 12 rls. lb
Matadero at 21 rls.
Total, 800 doz.

Deerskins—10 doz. at $58
Carpinchos—100 doz. at 14
Nutria—2,400 lb at 7
Wheat—Per fan. candeal, $103
Wheat—100 fan., Salado, 86, 85
Total, 530 fanegas.
Maize—Per fan. morocho in cob at 55
Maize—Per fan. morocho in grain at 50, 45, 44 and 43
Maize—Per fan. yellow in grain at 45, 44 and 43
Total, 1,700 fanegas.
Linseed—100 @ at 23
Hay—95 bales good, 500, 450, and 250 per ton.

At the South Market the following business done:—

84 waggons arrived with produce.

The arrivals were:—
5,840 @ of wool
and much other produce.

In Barracas al Sud—
34 doz. sheepskins
184 bales wool
1,200 capones
1,600 bags wheat
and much other produce.

Sheepskins, wool, hair, cow hides and corderitos flat, and other produces no variation in prices.

The sales were—

Wool—
1,500 @ good, 85, Gutierrez
200 @ good borrega, 65, do
200 borrega, 82, Chapar
2,000 @ reg., 75, A A
500 @ reg., 72, Chillado
50 @ good and borrega, 67, Casaux
300 @ borrega, 58, Ortiz
Total, 4,750 @

Sheepskins—
Per doz. good and desechos, 27, 15 rls. lb
Station, 23-20, 16-12, 10 rls. lb
Total, 849 doz.
Corderitos, 280 doz., $16, 15½, 15, 10

Cow Hides—
160 camp at 158, 156, 155, 154, 152
Hair—90 ar. at 165, 160, 157
Nutria—280 lb at $63
Tallow—4 pipos at 42
Hay—50 bales at 450

The market applauds the reduction in the freight charges on the Western Railway to the Riachuelo. Although this reduction only applies to consignments from Moron and outside and does not extend to the stations inside and to the Once, it is a measure that will take all the grain to the Riachuelo and will save the grain men from the extrotions, exactions and delays of shipment and conveyance at the Catalinas Mole. Grain merchants state that they will not ship a fanega of grain at the Catalinas now, and every bag will now go to the Riachuelo. Large quantities of maize are being shipped now, but the export of wheat is small compared with the business doing up rivers. The present facilities by the Riachuelo route will increase the export and will save the grain market from an accumulation of grain that threatened a general tumble in prices. All the grain merchants applaud the Board of the Railway and hope that the reduction will be extended all the year round.

The steamer Scotia will set out for the South on the 28th inst. The farthest South point of her destination will be Staten Island.

The Bahia Blanca and Toro have anchored in Bahia Blanca.

The following is the Budget of the Department of Justice and Public Instruction for next year:—

	Per month.	Per year.
	$m/n.	$m/n.
Ministry	3,717.00	44,604.00
Supreme Court	6,725.66	80,707.92

Expenses	4,600.00	55,200.00
Total,	379,753.31	4,557,039.72

The following communication will be read with interest:—

Extract of a letter from a ship-master to his owners:—

Buenos Aires has not improved any since my last voyage; apparently time is still of no value.

My consignee used five days before he obtained the necessary papers to discharge the vessel.

Formerly the Health Doctor visited on the Guard Ship, but now he has to come from the city; as the Government has no boat for him, he depends on the steamer agents to send him off in one of their steam launches. Consequently, 'no arrivals of steamers, no pratique for sailing vessels', Captains have told me they have been detained three and four days in the roads; in such a way is commerce favored by the Argentine Republic; still the merchants won't bestir themselves to have things rectifid.

The only remedy lays in your hands at home by agreeing together for higher rates and 'less lay days' in order to make up for this unnecessary detention.

Will say a word regarding the state of the Boca. Don't know if it is Government's or private property; however, since I was here it has been very much filled up by a freshet, and although two months have elapsed no improvement has been made yet by dredging or otherwise to enable vessels to lay close to the wharf, and my vessel lays about thirty feet off, and 18 out of every 24 hours aground on her port side; rather rough on vessel and metal. 'By the by', one improvement has been made regarding wharfage; we have to pay now every working day, if vessel has anything to do or not.

BANCO HIPOTECARIO

Esta abierto al servicio público todos los dias de trabajo desde las 10 de la mañana hasta las 4 de la tarde.

Presta sobre hipoteca con reembolso á largos plazos.

Por el valor del prestamo de cedulas hipotecarias que producen una renta igual al interes que cobra el Banco.

El valor del inmueble hipotecado no debe ser menor de $f 2000 n el prestamo menos de $f.500.

Los prestamos hipotecarios no pueden exceder de la mitad del valor del inmueble.

El interesado se obligará a pagar una anualidad que dure todo el termino del contrato. La anualidad se compone del interes del capital prestado, del fondo destinado á amortizarlo y de la comision del Banco. La anualidad se divide en trimestres, y las cedulas que al presente da el Establecimiento son:—

Serie E.

Dura 20 años 100 dias 8 o/o de interes, 2 o/o de amortizacion y 1 o/o de comision.

Pagadas las anualidades convenidas por todo el tiempo del contrato, queda la hipoteca redimida, y libre el deudor de las obligaciones hacia el Banco. El deudor podra libertar el inmueble, en todo o parte, anticipandose el contrato.

El que pretendiese prestamos del Banco se presentara por escrito, designando el inmueble que ofrece en hipoteca de una manera precisa, acompañando los titulos de propiedad, los boletos de contribucion directa y espresando al mismo tiempo su estension el gravamen, o los gravamenes que deben ser levantados simultaneamente que se constituya el credito hipotecario. En la Secretaria encontraran el formulario y las tablas de amortizacion.

Los deudores por trimestres haran las entregas de 8 a 15 de Enero, 8 a 15 de Abril, 8 a 15 de Junio, 8 a 15 de Octubre.

Con el fondo cobrado por amortizacion, se rescataran cedulas por sorteos a la par, y con anticipacion de un trimestre.

Las ventas de las cedulas trimestrales las pagara el Banco de 1 a 15 de Enero, de 1 a 15 de Abril, de 1 a 15 de Junio y de 1 a 15 de Octubre.

El Banco podra servir de intermediario gratuito entre el capitalista y el hipotecario para la colocacion comercial de las Cedulas. A este objeto recibira depositos sin interes, que para su colocacion tendran la prelacion con que entraron al Banco.—Estos depositos pasaran al Banco de la Provincia.

El mismo Banco hipotecario recibe sus cedulas en deposito gratuito, dando al depositante una libreta que servira de certificado del deposito.

El deposito se admite desde una cedula de $f.50 que es el minimum de las que emite el Establecimiento.

A Derangement of the Liver.

THE CAUSE OF DISEASE

IN THE

STOMACH, KIDNEYS, AND Nervous System.

Below will be found a brief summary of a Lecture upon the Liver, delivered before the Eclectic College of Medecine, by

Dr. J. Haydock

The Liver has been known as the great blood-maker and blood-purifier of the circulation. From its size and spongy structure, it plays a most important part in the animal economy, as regards assimilation and nutrition. Food taken in the mouth and acted upon by the digestive organs of the stomach is converted into Glucose and Peptone, and in these forms enters the Portal vein. Here, by the action of the liver, these substances are converted into a form of sugar and pass out of the liver by a large vein, called the Hepatic vain, into the great circulation. The new material now formed serves two purposes: viz: the maintenance of heat in the body and assisting in the cell growth of the system.

Dr. Murchison says "The composition of bile and its secretion is very complex. It is constantly being secreted by the liver, and, increasing suddenly before eating, gradually decreases as soon as the appetite is satisfied and feeding ceases." Now, if this most important organ of the body becomes torpid, or the passage of bile interfered with, emaciation and disease ensue. I note eight marked peculiarities that now occur, and which we all know of:—

1. The patient complains of a feeling of weight and fullness of the stomach.
2. Distension of the bowels by wind.
3. Heartburn.
4. A feelingof weariness, pains in the limbs and great sleepiness after meals.
5. A bad taste in the mouth, especially in the morning, and furred tongue.
6. Constipation, with an occasional attack of diarrhœa.
7. Headache in front of head.
8. Depression of spirits and great melancholy, with lassitude and a disposition to leave everything for to-morrow.

All of the above symptoms go to show functional derangement of the liver; and now comes the great importance of any error made as to the condition of the patient. He should immediately provide himself with a Liver Stimulant, the most common form of which is a Pill. Daily experience shows that this, when the Pill is compounded properly, is the readiest mode of inciting and promoting the action of the Liver, and can be almost always relied on. I have devoted many years of my life, as many of you now before me know, to compounding a Pill that will act readily and systematically as a Bilious remedy. I do not believe in great purgatives, and therefore have made a Pill, one of which is an active and thorough dose. I have called it

Dr. Haydock's New Liver Pill

(SUGAR COATED)

One Pill is a Dose! One Pill is a Dose!

For all Diseases of the Kidneys, Retention of the Urine, Dr. Haydock's New Liver Pills are a perfect cure. One Pill will satisfy the most skeptical.

For Female Diseases, Nervous Prostration, Weakness, General Lassitude, Want of Appetite and Sick Headache, Dr. Haydock's New Liver Pills, will be found an Effectual Remedy.

They are universal in their effects, and a cure can almost always be guaranteed.

Each vial contains Twenty Pills. One Pill is a Dose. Price Twenty-five cents. For sale by all Druggists.

Every Pill is Sugar-Coated. If your druggist does not keep them, we will mail them free to any address on receipt of 25 cents. Five vials for $1.00. Buy at once. Do not Deal.

CAUTION—To secure the genuine Haydock's Pills, observe that the signature of J. H. Francis, Agent for the United States, is written on every dozen package. Purchase none without this.

As Dr. Haydock's Liver Pills are entirely different from the 212 kinds now in the market any skeptic can have a sample bottle sent him free on receipt of his name and address.

EDITOR'S TABLE

(Continued from 1st page)

The Sud America has brought one day's later news from the European Continent, and it is by no means good news. That pious fraud the Mahdi is now lord and master of most of the Soudan. Tasser and its garrison have fallen into his hands, and his forces are now estimated at 40,000 men and 60 cannon; with 200,000 more men ready at his call. The treaty between France and China has made a bad impression in England, as it will throw, or is designed to throw, much of the trade of the vast empire into the hands of France. Another row has sprung up in Zululand. Prince Victor Napoleon has finally broken with his father, Prince Jerome, and has gone to England to visit the Empress Eugenie, who will allow him a liberal sum as pocket money, to make up for his papa's stinginess in this respect.

A poor 'changador' had to be sent to the Convalesencia on Wednesday, owing to his having gone out of his mind through discussing and feeling too warmly on the great religions question of the day.

The ex-President of Peru, Mr Garcia Calderon, arrived here yesterday morning from Montevideo. We hope he will have a pleasanter stay here than he had in Chile.

King Frost is thinning the 'attorante' fraternity. Another poor tramp was found frozen to death yesterday morning at the Retiro.

The two famous trotters El Moro and Vincent will try conclusion again on Sunday next at Palermo, the latter getting 500 yards start; distance 3,500 metres. The Jockey Club holds the stakes—800 Nats.

The estate of the late Mr. Anthony Visconti is now being wound up by the Courts. The total worldy goods possessed by the defunct Ligurian were a greasy pocket-book and an old key.

The other Sunday a popular preacher in Birkenhead, in enumerating the things not to be found in heaven, said: "There is no darkness there, no clouds, no sorrow, no sickness, no grave, no funerals, no preachers"—as the congregation smiled at this point, the clergyman remarked: "that is, there is no preaching there."

Buying pills from your barber is rather a dangerous investment. A gentleman named José Martin laid out a few cents in this way on Monday evening in La Plata, and on Tuesday morning played the leading role at his own funeral. Mr. Gonzales, the barber in the case, has been politely asked by the police to say where he got the pills, or what they are made of; also where and when he got the licence to sell this peculiar medicine.

"No song, no supper." The baritone Angelini has published a letter in the Rosario papers explaining why he refused to sing in the opera Ruy Blas there on Sunday night last. He says that the 'empresario' owes him 112 pats. since the night of his benefit, and refuses to pay it. This is enough to provoke an angel, much more an Angelini. No wonder the police could not make him sing.

Messrs Twin Butler & Co. have informed the Municipality that the first section of the Palermo Road, which they are macadamising, is finished. Every road leading into the city should be undergoing the same process at all events for some little way.

"Now, you must converse in nothing but French," said Monsieur the professor to his pupils. Silence immediately fell on the class for the space of a quarter of an hour, when the professor exclaimed, "What! Nothing but silence? Zat is de very opposite of French."

The *Patria Argentina* sarcastically marvels at there being no banquet to inaugurate the lighting of some streets in La Plata by kerosene.

Our valued colleague the *Oeste* of Mercedes is dead. We're sorry, as it was a useful camp paper.

There is splendid news from Paris. The great savan Pasteur has discovered infallibly that dogs can be preserved from hydrophobia by inocculation. In this city of many, mad and mangy curs this new discovery will save many a man's calves and pantaloons, if it be applied; but people are so woefully careless about having themselves and their children vaccinated for small pox, that they will hardly take the trouble of having their dogs inocculated for hydrophobia. In any case M. Pasteur's discovery is a vital one.

Brown's Dentrifice

There is no tooth powder, paste, or wash, that will whiten and beautify the teeth like

Brown's Camphorated Dentrifice

Recommended by the principal dentists. Price 40 cents per bottle.

A las 2 en punto

Venderemos al mejor precio y al contado, por orden y cuenta del Sr D. Diego Getting, los 40 hermosisimos carneros Lincoln que llegaran al pais con el vapor Thales.

Los animales que ofrecemos forman el mas selecto lote de Lincoln que se haya presentado en remate, han sido elegidos entre los mejores por su tamaño, fina y abundante lana y disposicion para el engorde.

Los Sres. cabañeros no deben olvidar que la exportacion de carnes asegura para los productos y *cruzas de raza* Lincoln una venta colosal que puede ser la base de una gran fortuna.

Al mismo tiempo debemos avisar a los Sres. Estancieros que el Sr Getting recibira por el vapor Lamport, un selecto lote de 30 hermosas ovejas Lincoln.

Las mejores venidas al Rio de la Plata, todas servidas por padres notables.

Este lote llamara la atencion de los estancieros, pues no se ha vendido nada mejor.

BULLRICH & CIA.
CABANA
"Las Acacias"
De los señores
EDUARDO OLIVERA

Deseardo evitar a los señores criadores, de hacer un viaje inutil a la cabaña arriba mencionada, en busca de animales reproductores, les prevenimos que como en los años anteriores, todos sus productos seran vendidos en remates publicos, en nuestra casa Alsina 78, debiendo efectuarse el primero de estos, el 1° de Agosto proximo, con un esplendido lote de sus

Renombrados Carneros
RAMBOUILLET
Argentino

Prevenimos tambien que cediendo los Sres. Olivera a los numerosos pepidos que han tenido pondran en venta algunas ovejas notables por su tipo y hermoso tamaño.

Adolfo Bullrich y Cia.
78—Alsina—78

PRODUCE DE
80 á 90,000 pesos al año
Campo para vacas y ovejas
Base para la venta
350,000 PESOS LA LEGUA
En nuestra casa
78—ALSINA—78
El Jueves 26 de Junio 1884
A las 2 de la tarde

Remataremos a la mas alta postura y dinero de contado por orden de su propietario:

El campo arriba mencionado es compuesto de 6247 hectareas, 14 areas 31 centareas Partido de Necochea, que formo parte del conocido por Las Calaveras, sobre el Arroyo Quequen Grande, en una estension de mas de dos leguas, cuya magnifica aguada permanente es de suma importancia para un gran Establecimiento de campo.

Linda arroyo en medio con Don Juan Anchorena y con los establecimientos de D José R Fernandez, y Manuel P Poblet, Nicanor Elejalde y Juan N Fernandez. Contiene el campo el camino carretero que viene del Tandil al Puerto de Necochea tenia en el mismo paso del arroyo una casa de negocio de Felipe Eguinoa denominada San Cala, quien debido a la gran afluencia de tropas y passageros, tenia salida de la caponada que le producian al año sus 12,000 ovejas, así es que no tenia que buscar otro mercado para ese articulo.

Existen actualmente los siguientes arrendamientos sin contrata:

Don Juan Gimenez que ocupa cerca de una legua con cinco poblaciones con mas de 1500 cabezas de ganado vacuno, 8000 ovejas y yeguas, abonando solo y por consideracion de antiguedad 23,000 pesos al ano, en la legua y media restante, que comprende San Cala, hay un sola puesto del catalan y por cuya área dada la importancia del parage puede arrendarse por 60,000 ps. al ano; habiendon varios fuertes comerciantes de Juarez interesados en arrendar toda el area o la desocupado por un término largo, pero se ha querido conservar el campo en sus actules condiciones para que el nuevo propietario pueda disponer de el a su antojo.

El campo esta alambrado por los costados de los Sres. Elejalde, Arroyo de Quequen Grande, Sr. Anchorena, y alambrándose por el costado del Sr. Fernandez.

El Ferro-Carril del Tandil à Juarez, que se inaugurarà en Setiembre facilitarà la comunicacion y transporte, pues queda à nueve leguas escasas del Pueblo de Juarez.

Una parte del campo (1,6-10 legua) reconoce un gravamen de 8000 fts. al Banco Hipotecario que si atiende perfectamente bien con el arrendamiento que paga Gimenez dejando todavia un sobrante.

Las personas que quieran inspeccionar el campo pueden dirijirse al Sr. D. Jose Echenagucia en el mismo campo.

Se ha fijado la base para la venta es 350000 ps. legua, precio ofrecido en Marzo del año pasado por el Sr D José R Fernandez, precio bajo comparandolo con los precios obtenidos por el Gobierno de la Provincia en los ultimos remates, por campos infinitamente inferiores y en pleno desierto.

Por planos y pormenores ocurrir a nuestra casa Alsina 78, o a la oficina del escribano Echenagucia, Alsina 95.

Pildoras Holloway.

Las virtudes de esta admirable medicina son especialmente eficaces para expulsar de la Sangre toda impureza. En los casos de debilidad, ella es incomparable, al paso que cura radicalmente las Indigestiones, y los desordenes generales del Higado, del Estomago, y de los Intestinos, restableciendose, como por encanto, el vigor y la salud normal, dichas Pildoras remueven asimismo las dolencias que suelen afilijir a las Mugeres al llegar estas a la edad critica.

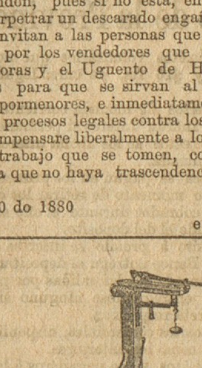

Unguente Holloway.

Este incomparable Balsamo sana los Males de Piernas y de Pecho, las Llagas Antiguas, y aun esas Ulceras cuyo orijen no conviena mencionar en un anuncio publico. Para todas las Erupciones cutaneas no hay remedio igual al Unguente Holloway, al que millares deben la salvacion, tanto de sus Brazos y Piernas como de su existencia.

Antes de comprar, examinese con mucha cautela el Rotulo en el Bote o la Caja, para cerciorarse si esta la direccion de 533 Oxford Street, London, pues si no esta, entonces se trata de perpetrar un descarado engaño.

☞ Se invitan a las personas que sean defraudadas por los vendedores que expenden 'Las Pildoras y el Unguento de Holloway' falsificadas para que se sirvan al comunicarme los pormenores, e inmediatamente para formalizar procesos legales contra los Ofensores, y recompensare liberalmente a los Delatores por el trabajo que se tomen, comprometiendome a que no haya trascendencia de sus nombres.

LEA & PERRINS' SAUCE

In consequence of Imitations of THE WORCESTERSHIRE SAUCE which are calculated to deceive the Public, Lea and Perrins have to request that Purchasers see that the Label on every bottle bears their Signature thus—

Lea & Perrins

without which no bottle of the original WORCESTERSHIRE SAUCE is genuine.

Ask for LEA and PERRINS' Sauce, and see Name on Wrapper, Label, Bottle and Stopper. Wholesale and for Export by the Proprietors, Worcester; Crosse and Blackwell, London, &c., &c.; and by Grocers and Oilmen throughout the World.

can be obtained Wholesale of
